

RIDDLE ME THIS

Would you like to make your own riddle?
This riddle plan belongs to:

We're going to start from the end - the answer - 1. What is the answer to your riddle? _____
(Ex: Ari's answer is creepers)

2. What two clues can you give someone about your answer:

(Ex: Creepers are afraid of cats.)

(Ex: They are enemies that attack.)

3. In the boxes below, list keywords you could use to describe each of these clues:

(Ex: Cat, cats, kitty, kittens, felines, meow)

(Ex: Foes, villain, enemies, attack, harm)

4. Now criss cross: form a sentence that rhymes with a word from a box above, but describes the clue in the other:

(Ex: "For these enemies, you have no pity" - rhymes with kitty.)

(Ex: "These silly green villains get outta there, stat!" - rhymes with cat.)

5. Finally, complete your riddle by writing out the other sentence matching up the rhymes and sharing both clues:

(For these enemies, you have no pity,) (When you play Minecraft and in walks a cat,) (When they panic, you'll raise a brow.)
(These crazy monsters are scared of a kitty.) (These silly green villains get outta there, stat!) (Foolish old foe, it was just a meow.)
